

9<sup>th</sup> November, 2022

To,  
The Visa Officer,  
The Canadian High Commission,  
New Delhi, India

**Subject: Re-application for Study Permit (UCI: 11-2227-3081 and Application No: S305279723)**

Respected Sir/Madam,

I, Roshan Raut, had applied to pursue a Post-Graduate Certificate Program in Construction Project Management at Centennial College, Toronto, Canada. However, my application was refused on 4<sup>th</sup> November, 2022. The correspondence letter mentioned the reason for refusal as follows:

- **I am not satisfied that you will leave Canada at the end of your stay, as required by paragraph R216(1)(b) of the IRPR. I am refusing your application because you have not established that you will leave Canada, based on following factors:**
- **The purpose of your visit to Canada is not consistent with a temporary stay given the details you have provided in your application.**

With reference to my refusal letter, I wish to provide relevant additional explanations demonstrating my intention to return back to my country after completing the post graduate certificate program in Construction Project Management, through this letter. I would like to make it clear that, I have no intention to permanently stay there in Canada. My only purpose of doing the course i.e. Construction Project management from Canada is to get the International post graduate Degree Certificate and gain the global experience and international exposure in the field of construction as this would help me steer my career by learning the advanced constructional procedures and techniques and uplift my technical skills.

#### **Assurance that I will leave Canada**

After successful graduation and gaining the degree certificate from Centennial College, I would certainly like to gain real life experience of International Engineering system and construction project management techniques for a year practicing the skills and knowledge that I will learn. Thus, my sole purpose of getting post graduate certificate would be fulfilled and I will return back to my country Nepal. I intend to open my own constructional company here in Nepal, for which the knowledge and skills I will gain from Centennial College would be great assist for me to be a successful entrepreneur in Nepal.

Furthermore, me being youngest son of my family, I am deeply connected emotionally as well as mentally with my family members, especially with my mother. Staying away from family and friends would definitely going to be tough for me, as I have never stayed away from them for long period. As I have already mentioned in my Statement of purpose that I did my Bachelor's degree in Civil Engineering form Bangalore, I could have stayed there, but I

decided to return back to Nepal and work here itself as staying away from my family was never my choice and I can assure you that certainly it will never be. I was brought up with great morals upbringing with ethics and I have always got full support from my family and friends in all the decisions that I make be it professional, educational or personal. **Especially in the context of traditionally and culturally bound country like Nepal son of the family is more responsible to run, support and look after parents as they grow old.** After completing the tenure of my temporary stay in Canada during the course I have applied, I want to convert my dream in to reality of owning my own constructional company. If I could, I will be redefining the construction practice in Nepal with best possible mean and serve my country professionally.

Therefore, I am eagerly waiting to get enrolled with Centennial College and would be grateful if I could accomplish my future plans and career goals. I would like to assure you that I will always abide by all the rules and regulations of Canadian Government and college. I would kindly request you to approve my study permit and grant me a student visa to make me able to attend aforementioned programme. Thus, I request the esteemed High Commission of Canada to reconsider my application for the study permit. I am really optimistic that I will get a positive response from you.

**Yours Sincerely,**

Roshan Raut
